

## M-CUT HRC53 Titanium Safety Knife

Brand: Ocean Designs

### Description

Ocean Designs M-CUT HRC53 Titanium Safety Knife is the perfect knife to keep with your rescue kit. Its small and compact size allows the knife to be easily stored in your PFD pocket or wetsuit pocket. Its removable nylon sheath also gives the option to attach to your PFD, belt or Molle with either its Velcro attachment or belt loop.

The M-CUT HRC53 Titanium Safety Knife is suitable for rescue operators working with ropes, as it can cut up to 30mm diameter rope. Perfect for water operations, as being made from tough HRC53 Titanium, this safety knife won't rust and there is little to no maintenance required.

Suitable for water operations, boat operations, Flood & Swiftwater rescue operators.
