

# OTB BOOTS

## ABYSS Black

### MEN'S 5-12, 13, 14

The best shoe on the market today for OTB operations!

#### Athletic Comfort Foundation

- Wet surface multi-traction Grip-Stik outsole with operationally tested serrated heel design for traction on caving ladder rungs.
- Field tested Grip-Stik climbing rubber rand with strategically placed drainage ports provides traction and protection.
- Future Foam EVA cushion with full length polypropylene shank for stiffness and support when climbing a caving ladder.
- Water-tight EVA footbed with strategically placed drain port system designed to aid in water evacuation.

#### Performance Upper System

- Non-wicking, water friendly sock-like design, featuring a no-sand collar, preventing particle intrusion during beach ops.
- Heel and frontal webbing pulls for ease of entry.
- Operationally tested flat no-dig lacing system for pain-free long swims.
- Optimized design for use with most standard dive fins.
